yugpatelart@gmail.com | [Linkdin](#) | [github](#) | Ahmedabad, Gujarat

Extensively skilled through self-directed learning and hands-on development, despite no formal corporate experience.

“NO EXPERIENCE WITH TOO MUCH EXPERIENCE”

Technical Skills:

- **Frontend:** JavaScript | React.js | HTML | CSS | Tailwind CSS | Bootstrap
- **Backend:** Node.js | Express.js | REST APIs
- **Programming Languages:** Java (Data Structures & Algorithms)
- **Database Management:** MySQL
- **Version Control & Deployment:** Git | GitHub | Netlify | Vercel
- **Tools & Platforms:** VS Code

Projects(full stack):

1) **crop selling website for farmers** :- [Click](#)

This platform connects farmers with buyers by matching them based on location and the type of crops they sell or need. Farmers can list their crops, and buyers can browse available produce. Once a suitable match is found, farmers can initiate a contract request, which triggers an automated email notification to the buyer containing the farmer's details. The website ensures a smooth and transparent transaction process, making it easier for farmers to reach potential buyers directly.

2) **ART selling website** :- [Click](#)

This is a personal online store where customers can explore and purchase my sketches and paintings. The website features a beautifully designed gallery showcasing my artwork, making it easy for buyers to browse and select their favorite pieces. Unlike most online stores, this platform offers a **Pay on Delivery** option, ensuring a secure and hassle-free buying experience. This project not only serves as a portfolio but also as a direct sales channel for my artwork.

More projects of only front-end is in my [portfolio](#)

About Me:

I am a self-taught professional artist with a deep passion for self-learning. My dedication allows me to work continuously on a single sketch for up to 8 hours, ensuring precision and excellence in my artwork. I was awarded the MYSY and CMSS scholarships, which enabled me to complete my four-year education free of cost. Through my artistic skills, I have successfully turned my passion into a source of income, demonstrating creativity, discipline, and entrepreneurial spirit.
